Unique Advantages

High Resistance

Highly durable aluminum.

WIFI Updates

Free update to the latest software.

5 Years Warranty

On the diode and 3 years the unit.

Instructional Videos

Memory for video files.

Why 1470nm?

The 1470nm wavelength offers a greater affinity for fat and water than other lasers, therefore emulsifying fat faster and with less energy. This results in minimal recovery time, painlessness and lower risk of damage than other laser wavelengths.

Especificaciones

Wavelength	1470 nm
Maximum power	12W
Pulse width	10-25000 ms/1-25 s
Screen/Software	Pantalla táctil vívida de 7 HD/sistema operativo inteligente
Fiber Connection	200 con conector estándar SMA905
Operation mode	Modo continuo/Modo de pulso
Weight	2KG NW.
Dimensiones	218 nm x 47 nm x 155 nm
